TITLE OF THE PRACTICE

COMMUNITY DEVELOPMENT PROGRAMME - PLAY FESTIVAL

INTRODUCTION

According to Swami Vivekananda, the future health of the man is in the child. In giving education to a child the law of growth has to be obeyed. Nothing is more important than that the child must have a strong and healthy body. Beginning of all education, all training should be fitness making. The beginning and aim of all training is to make the man healthy, physically as well as intellectually. What our country now wants is muscles of iron and nerves of steel, gigantic wills which nothing can resist, it is fit body, fit mind, education which develops allround personality that we want.

Physical and health promotion for children:

All educational practices should consist physical training for healthy survival along with literary programmes from school level itself. Schools should integrate physical education and sports in the form of games and rhythmic recreational activities. Compulsory classes are to be included in the school time tables. Physical training and recreative activities play vital role in developing children's personality and social esteem.

Objectives of the Practice

1. Our students visit various Government elementary schools, where the physical education teachers are not available, and teach the physical activities which include free hand exercises, flag drills, coconut shell drills, wands drills, flower stick drills, yogasanas , kalari paayttu(defensive arts), oyillattam and minor games.
2. All these activities are taught to the tunes of devotional and patriotic songs, which develop sense of rhythm, patriotism and devotion.
3. Through the play festival programme we also teach the school students various important topics like environmental education, health awareness, fitness and wellness, yoga, tree plantation, rainwater harvesting etc.,
4. Our students get an excellent opportunity to organize a mega event like transporting and conducting rhythmic activities for more than 3000 children.

The Practice

Our institution conducts many programmes which help the community, among them, play festival is the prominent one. From 1937 onwards Ramakrishana Mission Vidyalaya is organising Sri Ramakrishna Paramahamsar's Centenary Memorial Play Festival to the near by panchayat union elementary school children. Since the inception of Maruthi College of Physical Education i.e., in 1956, our college has taken up the responsibility of organising the play festival.

SIGNIFICANCE OF PLAY FESTIVAL

This extension activity renders service to the children studying in panchayat union elementary schools through teaching various physical activities, related to health, hygiene, fitness and social harmony. These schools do not have the physical education programme due to non availability of physical education teachers.

PREPARATORY WORKS

- ❖ Finalizing the play festival activities
- ❖ Orientation of play festival to our students through video presentation
- ❖ Getting permission from District Elementary Educational Officer(DEEO) and Assistant Elementary Educational Officer(AEEO)
- ❖ Preparation of schedule for teaching play festival activities to our students
- ❖ Preparation of schedule for teaching play festival activities in the elementary schools by our students
- ❖ Group division of our students for practicing play festival activities
- ❖ Supervision by our post graduate students to various schools.
- ❖ Writing the lyrics for the songs, and arranging the tunes keeping in mind the rhythmic activities
- ❖ Practicing the songs with musical instruments
- ❖ Recording of the songs in the recording theatre
- ❖ Distributing the play festival songs CD's to our students, so that they can practice in their respective schools
- ❖ Printing of the songs in a booklet form
- ❖ Preparation of invitation and distribution
- ❖ Collection of student participation list for line arrangement
- ❖ Preparation of Equipments
 - Placards for participating schools
 - Preparation of flags (colour paper cutting and flag sticks)
 - Bundling the oyilattam kerchiefs according to the strength of the schools
 - Distributing white cement powder for colouring the coconut shells

- Distributing the colour papers for flower sticks and wands
- Bundling the caps according to the strength of the schools

Pre Arrangements for Play festival function

- Duty allotment for students and staff
- Ground marking and watering
- Preparing the refreshment details for school children and to the school teachers
- Minute to Minute Programme
- Shamiyana for children, staff and chief guest.
- Seating arrangements are made separately for men, women, guests, teachers, V.I.Ps, monks and press
- Stage for live orchestra and mainstage arrangements
- Arrangement of audio
- Juice point for children
- First aid point
- Reception point
- Fixing of the banners
- Pre Rehearsal for our student trainees

PLAY FESTIVAL FUNCTION

On the day of play festival all the school children were brought to our college. Later our teacher trainees make entries in the reception counter. Caps are provided to all the 3000 children to have protection from sunlight. The programme would be conducted as per the schedule. At the end of the programme all the children are provided with refreshments i.e. soya, sweet, mixture, Bengalgram and lime juice.

Obstacles Faced and Strategies Adopted

a) School children have to perform the physical activities under the sunlight, which make them dehydrated :

For all the children caps are provided to protect them from direct sunlight and lemon juice is given to the children to make them rehydrated.

b) Since the school children are coming from long distances they feel hungry at the end of the event:

Nutritious food items like soya, sweet, mixture and Bengalgram are being given to all the school children.

c) To organise such a huge event like play festival, for 3000 children, it is very difficult for our college students to cope up with the many works involved in organisational point of view:

With meticulous planning and co-ordination of the teaching faculty, all the works involved are be able to complete without any delay.

Impact of the Practice

1. Parents of the school children, school teachers and public are all wholeheartedly supporting this play festival event as it develops the children's personality.
2. Researches also have been conducted to identify the effect of play festival activities, which authentically reveals that the children's fitness and sociable factors are improved significantly.
3. Our college students are benefited through this play festival, as they get rich experience in teaching the activities to the elementary school children, preparing the required equipments, transporting the kids, and organising the massive event with 3000 children. This gives very good confidence to organise any such mega event.

Conclusion: Swami Vivekananda's ideal depicts youth of the nation should be very conscious on downtrodden upliftment through which national development will be perfect. The play festival programme initiation is accomplished the above ideology. Hence the entire programme, planning and execution of our college activities are directed only towards the community service oriented and social development.

Resources Required

Our institution is having all the resources required to conduct this programme. Our management is supporting in all the possible ways to organize the play festival. All the staff members are cooperating and extending their support for the success of this play festival.

BEST PRACTICE – II
TITLE OF THE PRACTICE

SERVING THE SOCIETY THROUGH SPORTS COACHING

INTRODUCTION

A famous quote of Swami Vivekananda is “You will be nearer to Heaven through football than through the study of Gita. You will understand the Gita better with your biceps, your muscles, a little stronger. You will understand the Upanishads better and the glory of the Atman when your body stand firm upon your feet, and you feel yourselves as man”

This clearly reveals that to understand religious scriptures also one should have healthy body. As our institution gives top most priority to the ideals of Swami Vivekananda, we have been extending our services to the society through sports.

Objectives of the Practice

In our institution sports coaching for outsiders is done for two categories of people:

I. Coaching for School Children

We are offering coaching for the school children in Badminton, Cricket and Tennis.

- a) The main objective of giving coaching for school children is to teach them fundamental skills in a scientific way and to nurture their natural talent.
- b) To conduct district level and state level tournaments for providing competitive exposure to the players.
- c) To develop wholesome personality among the students through sports.

II. Rural Coaching

- a) The main objective of this rural coaching is to provide an opportunity to the rural based students to learn the fundamental skills in a scientific way and provide a platform to go for higher levels.
- b) To provide proper coaching to the students of rural based schools and colleges.
- c) Volleyball coaching is given to the school students.
- d) For college students coaching is given in ‘Football’.
- e) Our college students also would get coaching experience by handling these students.
- f) Tournaments were conducted separately for school children and to the college students.

Obstacles Faced and Strategies Adopted

- a) Though the school children are very much interested in taking part in the sports and games coaching, but the parents of the children are reluctant:

From our college, we have conducted many orientation and awareness programmes to the parents to make them understand that participation in sports is not a hindrance to the academics but helps in a positive way.

- b) During the week days the school children find it very difficult to attend the coaching programme :

Hence, we have also arranged coaching during the weekend i.e., Saturday two sessions and Sunday two sessions.

- c) In the rural coaching programme, initially the number of players attending for the coaching was very less:

With the persistent efforts of our staff and students, gradually the strength of the students to take part in the coaching was increased.

- d) For the players, motivational levels are very low:

The players have been motivated by organising tournaments among them and also through announcing prizes and trophies to the winners.

Practice

Coaching Academy for School Children

- i) For school children the coaching was given in two modules
- a) During week days – 4.30pm to 6.30pm (Monday to Friday)
 - b) During weekends – 7.00am to 9.00am, 4.00pm to 6.00pm (Saturday and Sunday)
- ii) During school holidays intensive coaching is given both in the morning and evening.
- iii) During summer vacation, special coaching programme was organised for 45 days.

Rural Coaching

- i) Our college student trainees give coaching in volleyball to the school students and football to the college students. This coaching is given for twenty days in two phases.
- ii) Finally the players are brought to sports competitions in our college campus

Impact of the Practice

- Identifying the talents in the schools and colleges
- Correcting the improper technique and methods of the players
- Overall performance is improved for all the players
- ‘Sports culture’ is developed among the school students as well as the college students.

Results

- General fitness of the players is improved.
- Parents of these children understand the importance of participating in sports and games and encouraged their wards.
- Not only the physical fitness, the overall behaviour of the children is improved with the participation in the sports.
- Many of the students are representing for their respective institutions and districts.

Conclusion:

- At Present, our college is organising coaching programme for school children in Badminton, Cricket and Tennis. This may be expanded to other games also.
- Similarly our rural coaching is restricted to volleyball for school children and Football for college students. This also may be extended to some other games.

Resources Required

- Our institution is having enough human resources and materials to conduct this programme successfully
