3. Proposed to display our college exhibition prepared by our students in the prominent institutions.

Proposals implemented

1. Various working models may be prepared by our students which would help to teach the safety guidelines to the school children

All of our BPEd students were visiting 45 elementary schools to teach play festival activities for school children from 05.02.2016 to 25.02.2016. During that time they were prepared working models to teach the safety guidelines to the school children during these play festival training days.

2. Proposed to conduct health and fitness awareness programme to Vidyalaya walkers and general public

Various health and fitness awareness programmes and body and mind oriented games were organized to Vidyalaya walkers and general public during Gurupuja (Gurudevvar Birthday) celebration and at regular interval.

3. Proposed to display our college exhibition prepared by our students in the prominent institutions.

- Our college exhibition prepared by our students and staff entitled, “Maruthi College of Physical Education: 60 years of service to the society” was displayed during Bhagavan Sri Ramakrishnar’s Birthday Gurupuja function celebrated in our Vidyalaya campus on 03.01.2016. Around 50,000 people were benefitted by our exhibition.
- Our college exhibition prepared by our students was display in the state level school exhibition organized by S.B.O.A Matriculation Higher Secondary School, Coimbatore on 20.01.2016 and 22.01.2016.

FEEDBACK FROM STAKEHOLDERS

A well conceptualized feedback system, involving all stakeholders, provides an opportunity for programme planning, curriculum design and syllabus revision. The recommendations of NCTE, the Tamilnadu Physical Education and Sports University, Chennai and the statutory bodies of our institution were considered during the revision process. Our college has systematically collect feedback from students, staff and employers every year through various modes etc. as given below:

- Feedback is conducted through e-questionnaire for the students because they will keep secrecy and replication of answers.
- Employers and faculty are requested to submit their feedback at periodical staff meetings.
- Descriptive enumeration of college activities and supportive activities to alumni by the college is collected at the alumni meeting and personal communication through Email, and invited for periodic discussion as feedback.
- Any new programme implementation is valued from the executive alumni member over the personal contact.
- Moreover, a feedback is also collected from the students at the end of the every semester, during practice teaching, parents meeting, at the time of course completion as well as after results received.
- Feedback is obtained from the parents during semester wise parents meeting.
- Reviews from the employers are obtained at the time of practice teaching, and statutory meetings of the college and from the community through various extension service programmes organized by our college.
- Opinions and suggestions from academic peers at the time of important occasions held in our college.
- Further, at the time of institutional training and project work our students are engaged to collect feedback from schools, colleges, sports clubs, industries, institutions, and professionals
- Seminars, Group Discussions and Assignments are introduced as encouraging steps for the improvement of quality of teaching, learning and evaluation and providing homely atmosphere to the students.
- Teaching excellence is also enhanced through feedback that enables to evaluate teacher effectiveness in every course. In addition to formal feedback, faculty members obtain informal feedback from students, review them and used for improving their competency.

BEST PRACTICE – I TITLE OF THE PRACTICE

MAN MAKING AND CHARACTER BUILDING EDUCATION

INTRODUCTION

Sri Ramakrishna Mission Vidyalaya was established on the ideals of Swami Vivekananda. In our Maruthi College of Physical Education, the entire educational process revolves around the man making and character building education. According to Swami Vivekananda, “the end of all education, all training should be man making. The end and aim of all training is to make the man grow. What our country now wants is muscles of iron and nerves of steel, gigantic wills which nothing can resist, it is man-making education all round that we want”. Swamiji further emphasizes that, “we want education by which character is formed, strength of mind is increased, the intellect is expanded and by which one can stand on one’s own feet. We need technical education and all else that will develop industries, so that men instead of seeking for service may earn enough by independent self-employment to provide for themselves”.

How to establish good character:

Swami Vivekananda considered that formation of good character is the essence of education and explained how it can be formed. “The character of any man is but the aggregate of his tendencies, the sum total of the bent of his mind. As pleasure and pain pass before his soul, they leave upon it different pictures, and the result of these combined impressions is what is called a man’s character. We are what our thoughts have made us. When a man has done so much good work and has so many good thoughts, there is an irresistible tendency in him to do good. Even if he wishes to do evil, his mind as the sum total of his tendencies will not allow him to do. He is completely under the influence of the good tendencies. When such is the case, a man’s good character is said to be established.”

Personality development:

“Personality is thus something beyond the body. It is a combination of many qualities. Strength, courage, firmness, ability to inspire people are some of the qualities common to men and women of outstanding personality. Personality is the sum total of all biological and acquired dispositions, impulses, tendencies and instincts of the individual. It is the total quality of an individual’s behavior, as it revealed in his habits, thoughts and expressions, attitudes and interests, his manner of functioning and his personal philosophy of life.”

Objectives of the Practice

1. To prepare the Physical Education teachers with outstanding leadership qualities.
2. “Service to mankind is the service to God” is the motto of Ramakrishna Mission hence; emphasis is given to service to the society.
3. “Work is worship” no work in the Vidyalaya is considered as low and high and all the students are have been made to understand this principle through various activities.
4. Value education is being given top priority in our campus which gives wisdom to our students, to have discriminating ability, to understand which is right, which is wrong and which is to be followed.
5. The education in our Vidyalaya campus is not only meant for giving training for the required skills but also to prepare them to live the life with moral and ethical values.

The Practice

The annual calendar is planned well in advance by allotting suitable schedule for theory and practical activities to prepare a good physical education teacher. Planning has been put forth in designing the various activities for our students to develop leadership qualities among them. The activities include leadership training camp, project sports meet, intramural activities, practice teaching, external tournaments, rural coaching, play festival; participating in cultural programmes, our staff and students serve the society through the various extension activities, which include organizing sports and games to various institutions, officiating and laying play fields, etc.,

NSS Programme:

Our institution conducts many programmes which help the community. These activities include serving in the slum areas like Arivoli Nagar and Bharathi Nagar, involving in the tree plantation and watering activities, blood donation, serving as the volunteers in the charitable hospital run by the Ramakrishna Mission Vidyalaya etc. These activities create a sense of responsibility among the students towards the society.

In the vidyalaya campus ‘work culture’ is practiced by the Swamijis, heads of the institutions and staff members. Hence it is very easy to make the students to understand the value and importance of work culture. This includes self serving in the hostel mess, cleaning the hostel rooms, maintaining the play fields etc., Only a good follower could become a good leader, with this principle all the students are provided with ample opportunities to volunteer themselves in various activities throughout the year which make them as good leaders.

The core principle of our institution is to incorporate value education to the students. Many activities have been planned to imbibe moral and ethical and patriotism to the students. The activities include Gurupuja, Independence day, Republic day, National Youth day, Youth convention, special lectures by Swamijis, spiritual retreat, Vidyarthi homa etc.

Obstacles Faced and Strategies Adopted

a) Hesitation to take up the activities: Initially students would hesitate to take part in the social activities like serving in the slum areas and cleaning the play fields etc. But through the orientation, all the staff members motivate the students to understand the importance of serving the poor people. Moreover, included the maintenance of play fields was included in the curriculum.

b) Irregular and not punctual: When the students are irregular and not punctual in attending the classes, all the staff members are involved in correcting the students through their exemplary work culture. All the staff members are very punctual for all the sessions and activities which make the students to follow.

c) Ignorance of ethical, moral and spiritual activities: In our campus, we have many monks who would be addressing the students on various occasions, which takes away the ignorance of the students on the issues of ethical, moral and spirituality.

d) Inhibition and low self confidence: College curriculum and the entire environment of the Vidyalaya make the students to involve in various social activities, cultural activities and sports events which would take away their inhibition and make them more confident.

Impact of the Practice

Students would join our college from various backgrounds but mainly from the rural and also from the economically weaker sections. They do not have exposure to the various activities which would contribute to their overall personality development.

But with the exposure to the multifaceted activities of the Vidyalaya in general and particularly man making and character building education which is imparted in our Maruthi College of Physical Education is making huge impact on the personality development of our students.

Some of the prominent behavioural changes among the students

- Maintenance of punctuality
- Dignity of labour
- Positive attitude
- Sense of responsibility
- Sincerity to the work

Result: Over a period of time, the educational institutions, which are recruiting the teaching staff, understood the difference in the attitude of the students of Maruthi College of Physical Education and the students of other institutions and started giving top priority to our college students while conducting the campus interviews.

Our students are in great demand for the job opportunities; hence for the past two years 100% placement is taking place. Some of the students are getting more than two job opportunities.

Conclusion: The vision of our college is “to provide personal, intellectual and professional growth of its students and staff and to produce an ideal physical education teacher with emphasis on man making and character building education”. Hence the entire programme, planning and execution of our college activities are directed only towards the man making and character building education.

Resources Required

Our institution is having all the resources required to imbibe man making and character building education to all of our students. All the staff members are role models to the students in maintaining the punctuality and in executing the duties to the perfection.

ADAPTED GAMES AND REHABILITATION PROGRAMME FOR PERSONS WITH DISABILITY

INTRODUCTION

An estimated 10% of the world's population experiences some form of disability or impairment (WHO Action Plan 2006-2011). According to the India Census 2001: 2.19 crore people with disabilities live in India (2.13%). This includes persons with visual, hearing, speech, locomotor and mental disabilities. People with disability have more often sedentary lifestyles than people in general. A sedentary lifestyle that results from inadequate levels of physical fitness can contribute to a number of health problems, including obesity, hypertension, low back pain, osteoporosis, coronary heart disease, diabetes, colon cancer, anxiety and depression, and premature mortality. Regular physical activity is not prevalent in the lives of persons with disabilities. Physical fitness and regular physical activity are key factors in health and well being of all individuals.

In the current world the fitness and nutritional status among the population has become a big threat. By this the rate of birth of special children is alarmingly increasing. Our college is extending helping hand to this problem, and also stepped into innovations in this field to be a trend setter. As a first step we screened the regional population and as per their need rehabilitation and therapeutic services were provided only to children with intellectual disability in the year 2007. However, recently the scope of entire project has been extended to cover all the major disabilities.

Our college developed a sustainable curriculum in the field of Adapted Physical Education for creating awareness among the student-teachers of physical education. The pathway to achieving the theme, a group of concerned experts and therapists were gathered and designed rehabilitative and therapeutic welfare programmes for persons with disabilities through application of various therapies in numerous ways for the optimal development. The aim of the project was two fold. First was to concentrate on the academic progress and second one was to multidisciplinary rehabilitative approach to the parents and special children.

Objectives of the Practice

- a) It provides awareness among teacher trainees, special educators, curriculum developers and educational administrators, parents and others in service of disabled, particularly in teaching and training.
- b) It promotes research and publications in the area of adapted physical education.
- c) It improves the health-related physical fitness of the persons with disability.
- d) It organizes seminars inside the college premises.
- e) It joins hand with other nodal agencies to offer innovative programmes for persons with disability.
- f) It provides opportunities to get exposure to various therapies
- g) It provides inclusive welfare programmes to create social acceptance among the society

The Practice

The present practice came into existence by organizing national level bocce coaching and training camp for the intellectual disability in 2007. Consequently, various programmes were further designed in our college premises such as curriculum adaptation for the physical education course, encouraging research scholars, various disability sports in different categories, designing adapted games for persons with disabilities, designing adapted gadgets, rehabilitation set ups like physiotherapy, play therapy and prosthetic & orthotic unit etc.

Developing Adapted Physical Education Programmes

- Introduced Circle Kabaddi (Hearing Impaired), Maze Relay (Visually Impaired), Modified Kho-Kho (Visually Impaired), Ramp Bowling, Circle Bowler, T-stand Cricket, Wheelchair Hockey (Orthopaedically Disabled)
- Formulated adapted rules and regulations for the tournaments and officiating

Client Based Training Programmes

- Institution based programmes - adapted yoga, physical activities, therapeutic exercises and recreative games for the persons with disabilities
- Unified Play Day – Multidisciplinary training programme for the intellectually disabled children

Organizing Disability Sports Competitions

- National and state level Special Olympics and Paralympics Competitions
- Conducting adapted game tournaments and competitions at the District level

Research Work

- Enormous research works/projects and evaluation have been done in the area
- Our faculty members have also completed their PhD in the area of adapted physical education.

Obstacles Faced and Strategies Adopted

The financial assistance may prove to be burden but this is cheerfully overcome by various well-wishers. The management offers its share if the programme suffers for want of money.

Impact of the Practice

We strongly believe that an optimal development of a special child is achieved through application of various therapies in numerous ways. It will provide an interdisciplinary model and a platform to exchange from divergent fields to yield new and enhanced benefits. As a whole the college aims to provide programmes which creates an impact as well as awareness among the student teachers and the special population, to say, academic values and ethics, administration skills, social values, sports & games and problem solving.

The impacts are multi-fold and covers various aspects such as

- Inclusive recreational activities for persons with disabilities
- Based on the disability, the recreational and fitness activities were given by our students under the headship of Dr. A. Sathiyamoorthy, Sports Physiotherapist.
- Seminars and Workshops for physical educators and special educators
- The students are given an opportunity to choose the adapted physical education as an elective subject at master's degree level.
- The differently abled are assisted in all their competitions by the college students particularly by those who have taken adapted physical education as an elective.
- Inter-school competitions are regular features at the campus for which our student volunteers to work with the organizers
- Special Olympics Programmes were organized at the campus under the leadership of Dr. M. S. Nagarajan, Sports Manager, Special Olympics Asia Pacific region.
- The college students are specially trained and are encouraged to work with differently abled children in evaluating the physical fitness levels of the special children and to offer physical fitness activities.

Resources Required

- Human resources like qualified physical educationists, physiotherapists, occupational therapists, medical officer, special education teachers, and social worker.
- Physical resources, like play fields, play equipments, gymnasium, indoor stadium, various therapeutic units and transportation facilities.
- Financial resources for conducting programmes and implantation of events and competitions
